School District Parental Outreach

School districts will conduct ACP outreach to their families.

School districts who select this option will be pro ided with the following

- Sample notification outreach materials for social media outlets, text message campaigns, direct email, and/or other means to notify families of the effort.
- A script for the calls as well as information about the ACP and links for support.

School districts will be as ed to track new ACP enrollments to help gauge the success of outreach efforts. It is recommended that school districts also request an ACP Training Workshop for School District Staff (next option).

ACP Training Workshop for School District Staff

cover the

- Sample notification outreach materials for social media outlets, text message campaigns, direct email, and/or other means to notify families of the effort.
- A script for the calls as well as information about the ACP and links for support.

ACP Workshop for Families

GaDOE and CTC will hold workshops with families to answer questions al process, and walk attendees through a sample application. Districts selec to promote the workshop among families.

answer any questions they have about the ACP. These workshops will assist families with program sign up, help districts identify which families effectively track new ACP enrollments.
Workshops will also give examples of actions that could be taken to furth

Third-party ACP Support Organization Research

[redacted]

School districts would be encouraged to work with these organizations to support their efforts for the students and their families. This options is a good idea for each school district and may be the best option for school districts who are more comfortable with local organizations contacting families but lack the resources to undertake the outreach effort themselves.

For additional information, please monitor the Ga Student Connect website for relevant information or call 470-500-1903.
